Shipping advices

Warehouse shipping advices allows supplier's remote warehouses or third-party warehouse Partners to communicate to the supplier that they have shipped the purchased products to the buyer’s location.

For more information about Warehouse shipping advices guidelines, see Warehouse shipping advice transactions.

Create and submit shipping advices

Perform this task to create and submit shipping advices. Additionally, providers can begin work on a shipping advices and save it for completion at a later time.

Create and submit a new shipping advice

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Logistics - Provider from the left menu.

Partners must have the correct **roles** assigned if using the Owner's

© TraceLink Inc. 2009 - 2025 All Rights Reserved

instance of Multienterprise Information Network Tower.

7. Select Shipping Advices.
8. Select the New button.
9. Enter the shipping advice number in the Shipping Advice Number field.
10. Select the Save button.

    The screen refreshes with the saved shipping advice in the draft state and with the required sections populated.

viii. Quantity Shipped field – The number of units shipped.
ix. Unit of Measure drop-down – The unit in which the line item is measured.
x. Line Notes field – Additional information about the line item being added.

c. Select Apply.

   The new line item is added to the shipping advice.

d. Select the line item row and then select the branch icon and fill in the following fields under Sub Line Item Information section:
   i. Packaging Level field – The primary packaging type used for physical packing aggregation in delivery. Valid values are:

© TraceLink Inc. 2009 - 2025 All Rights Reserved

- PL: Pallet
- CA: Case
- PK: Inner pack bundles
- EA: Each

ii. Packaging Identifier Type field – The format type of the packaging identifier used for parent-level physical packing aggregation in delivery. Valid values are :

- SSCC
- PALLETNUMBER
- CARRIERASSIGNED
- SHIPPERASSIGNED
- UCC-EAN128

iii. Packaging Identifier field – The parent-level packaging identifier used for physical packing aggregation in delivery.

e. Select Apply.
The sub line item information is added to the line item.

f. Select the line item row drop down to view the sub line item information in a table.

22. In the Notes section, select the Add + icon to enter any additional comments or instructions.

© TraceLink Inc. 2009 - 2025 All Rights Reserved

23. To submit the shipping advice:

    To save the shipping advice in a Draft state and finish it later, ensure the Move To button is not selected and then select the Save button in the draft state.

    a. Select the Move To button at the top of the screen.

       The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

    b. Select the Save button.

       The shipping advice is submitted.

Tips

- Select the Add + icon, to add a new line item, where available.
- Select the Delete − icon, to remove an individual line item, where available.
- Select the branch icon, to add a new line item in the inserted table, where available
- New shipping advices can also be created by selecting the New button on the Shipping Advices Details screen for an existing shipping advice.

Submitting a draft shipping advice

Complete and submit a saved shipping advice in the draft state.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the

© TraceLink Inc. 2009 - 2025 All Rights Reserved

header.

4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Logistics - Provider from the left menu.

   Partners must have the correct **roles** assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Shipping Advices.
8. Select the Filter button to find the shipping advice in Draft state.
9. Select the Shipping Advice Number link in the results table.
10. Select the Edit button.
11. In the Transaction Information section, select Submitted from the Process Status drop drown.
12. Confirm the shipping advice details and select the Edit icon associated with that line item to modify the fields if required.
13. Select the Move To button at the top of the screen.

    The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.
14. Select the Save button.

    The shipping advice is submitted.

Tips

- Select the shipping advice number row and then select the Delete icon on the top of the Search Shipping Advices screen, to delete a shipping advice in draft state.

 A deleted transaction cannot be retrieved.

Create new discussions and add comments to existing discussions

Owner and Partner can start discussions or add comments directly from a subtype view page. This allows authorized users from owner and partner companies to collaborate in the context of the transaction they are viewing.

Start a Discussion from a Subtype View Page

Perform this task to add new discussion directly from the subtype record being viewed.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Navigate to the subtype record you want to discuss.
7. Open the subtype record to display its view page.
8. Select the Add Discussion button.
   The new discussion page opens in a new tab.
9. Start the discussion using one of the following options:
   i. In the Transaction section, select the transaction ID link to review and

© TraceLink Inc. 2009 - 2025 All Rights Reserved

update the related transaction automatically referenced from the subtype record.

ii. Select the New button to initiate a new discussion for the transaction, if required.
This creates a new, independent discussion thread for the transaction. The new discussion will not be a continuation of any existing discussion associated with the subtype record, and prior discussion details from the subtype record will not automatically carry forward into the new thread.

10. Enter the discussion details. For detailed field descriptions, see Create and Submit a Discussion.

11. Select the Save button.
The new discussion is now associated with the transaction from the originating subtype view page.

Add a Comment from a Subtype View Page

Perform this task to add a comment to an existing discussion associated with transaction being viewed.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.

6. Navigate to the subtype record related to the discussion you want to comment on.

© TraceLink Inc. 2009 - 2025 All Rights Reserved

7. Open the subtype record to display its view page.
8. Select the Add Comment button.
   The Discussion Search page opens in a new tab within the context of the selected transaction.
9. Find the discussion to update using one of the following options.
   i. Review and update the discussions already associated with the transaction.
   ii. Select the Filter button, enter the search criteria, and apply the filter. From the filtered results, select the discussion to review and update. For detailed field descriptions, see Search and View All Discussions.
   iii. If the existing discussion is not appropriate, select the New button to start a new discussion for the associated transaction. For detailed field descriptions, see Create and Submit a Discussion.
10. Select the discussion to update.
11. Enter comment.
12. Select the Save button.
    The comment is added to the selected discussion and remains associated with the related transaction.

Search and view shipping advices

Search for and view shipping advices

Perform this task to search for shipping advices sent or received by buyers or sellers to view their details. Viewing the details of a shipping advices enables buyers or sellers to quickly access order information (e.g. the quantity for each line

© TraceLink Inc. 2009 - 2025 All Rights Reserved

item in an order) in TraceLink without having to search through the actual B2B message.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Logistics - Client or Logistics - Provider from the left menu.

   Partners must have the correct **roles** assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Shipping Advices.
8. Select the Filter button.
9. In the Filters panel, fill in one or more of the following fields to filter the results:
   i. Multi Field Search field - Searches across multiple indexed fields using a single keyword, including Text, Text Area, Email, URL, and Lookup fields.
   ii. State drop-down – The state of the shipping advice:
      - Draft – The transaction is in the draft state.
      - Submit – The transaction has been created.
      - Processing – The application is getting ready to handle incoming transactions by doing some initial tasks, such as copying the files it receives.
      - Processed – The application changes the standard information into a format that is easy to use and specific to your transaction.
      - Preparing to Send – The application is getting ready to send out a

© TraceLink Inc. 2009 - 2025 All Rights Reserved

transaction and is doing some initial tasks, like copying the necessary information for the process.

- Sending –The application sends out business transactions to the buyer or supplier.
- Sent – The transaction is successfully completed and shared with the receiving party.

iii. Client type-ahead – Displays only if the menu item is Sent Shipping Advices in Logistics - Provider. The name of the company the shipping advices was sent to.
If the name of the company is not present in the Owners master data then the company's name must be entered manually.

iv. Provider type-ahead – Displays only if the menu item is Received Shipping Advices in Logistics - Client. The name of the company the shipping order was received from.
If the name of the company is not present in the Owners master data then the company's name must be entered manually.

v. Shipping Advice Number field – A unique identifier of the shipping advice.

vi. Shipping Advice Date field – The date of the shipping advice was initiated.

vii. Shipped Date/Time field – The date and time the delivery is shipped.

viii. Last Modified drop-down – The period of time in which the shipping advice was last updated:

- Today – The transaction was modified within the last few hours.
- Yesterday – The transaction was updated within the past 24 hours.
- Last Week – The transaction was modified in the last 7 days.
- Last Month – The transaction was modified in the last 30 days.
- Last 3 Months – The transaction was modified in the last 90 days.
- Last 6 Months – The transaction was modified in the last 180 days.
- Custom Range – Select a specific period of time that the transaction was modified in from the calendar.

© TraceLink Inc. 2009 - 2025 All Rights Reserved

10. Select Apply.

    A list of shipping advices displays based on the filter results.

11. Select the link for the shipping advice from the results table.

    The View Shipping Advices screen displays.

12. To view all fields for each line item, select the View icon on the Shipping Advices Details screen.

Reprocess and resubmit shipping advices

Reprocessing a shipping advice

After the shipping advice is submitted, the user might encounter an error and the processed status will be set to Paused With Error. Use the following procedure to resolve any error messages encountered while submitting shipping advices.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Logistics - Provider from the left menu.

   Partners must have the correct **roles** assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Shipping Advices.
8. Select the Filter button to find the shipping advice in Processing, Processed, Preparing to Send, or Sending state.

© TraceLink Inc. 2009 - 2025 All Rights Reserved

9. Select the Shipping Advice Number link in the results table.
10. View the following fields for error in the Transaction Information section:
    - Process Status - Displays the status of the submitted transaction.
    - Last Transaction Error - Displays the error message.
11. Select the Edit button..
12. In the Transaction Information section, select Submitted from the Process Status drop drown.
13. Select the Save button.

    The shipping advices request is moved from Processing state to Sending state indicating that the shipping advices is submitted successfully.

⚠ Do not select the Move To button, as it will cause the transaction to skip a workflow state, preventing successful delivery.

Resubmit shipping advices

If a transaction is successfully sent to a partner but an issue occurs on the partner's side (e.g. in their ERP system), the sender can avoid re-entering all the details by rolling back to a previous workflow state and resending the transaction, thus saving time and effort for both parties.

1. Select the Main Menu icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Logistics - Provider from the left menu.

   Partners must have the correct **roles** assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Shipping Advices.

© TraceLink Inc. 2009 - 2025 All Rights Reserved

8. Select a Shipping Advice Number row in Sent state.
9. Select the Edit button.

   The state of the shipping advice is automatically moved to the Sending state.
10. Select the Move To button at the top of the screen.

    The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.
11. Select the Save button.

    The shipping advice is submitted.

The statues of the shipping advice moves to Sent state.
