UI Features

The following new or updated functionality will be included in this release.

Enhancements to Company Identifiers for Company, Partner, and their Locations

This feature introduces new EMVS identifiers for Owners that are subject to EU and EU FMD compliance regulations, and US pharmaceutical supply chain identifiers for Multienterprise Information Network Tower (MINT) Owners. Owners can use the new in Product master data to meet compliance reporting requirements for various countries in which a product is manufactured or sold. The following identifier types are added:

- EU - SPOR ORG ID – An identifier used for a company that performs tracking activities for substances, products, organisations and referentials (SPOR) to support EU regulatory activities.
- EU - SPOR LOC ID – An identifier used by a company location that performs tracking activities for substances, products, organisations and referentials (SPOR) to support EU regulatory activities.
- 340B ID – An identifier used to assign a unique value by the Office of Pharmacy Affairs (OPA) for each covered entity parent or child site to a company, company location, Partner, or Partner location.
- PHARMACY PROCESSOR NUMBER – An identifier used to assign a unique value
