Date	Revision	Description
11 Jan 2024	03	The following updates have been made since the previous revision was distributed: • 0 issues are added to Resolved issues. • 1 issue is added to Known issues.

UI features

The following new or updated functionality will be included in this release.

Export Multiple Master Data Entries at Once

This feature allows users with the Member - Expanded UI Access role to export a CSV file with large portions of company location, Partner, Partner location, or product master data using the OPUS Platform Web UI. Users can also filter and view previously exported files with company location, Partner, Partner location, or product master data.

In a future release, users will be able to add or edit data in a CSV file and import it to the UI.

Impact analysis

- Interface options:
  - UI
- Business segment impacts:
  - All business segments for both Owners and Partners.
