Smarter Management of Exceptions to Plan: How Supply Chain Leaders are Applying Industry 4.0 Strategies to Complex Disruptions

On-Demand Webinar

Duration: Mar 10, 2022 - Mar 10, 2022

Issues like shortages and late

deliveries generate thousands of

exceptions to supply plans that often escalate into full-scale disruptions. How are top supply chain leaders weathering the storm?

Join experts from Supply Chain Media, GlowBall Partners, and TraceLink for this on-demand webinar to see the results of a new survey of supply chain leaders and learn about the latest digital strategies that can help your planning teams resolve exceptions faster, eliminate root causes of recurring exceptions, and speed up order cycle times.

- Hear from Supply Chain Media's Martijn Lofvers, who will reveal the top supply chain leadership challenges of 2022.
- Get a firsthand look at how manufacturers are using digital technology to connect with suppliers in real time to ensure rapid issue resolution.
