RESOURCES

Transforming the Retail Pharmacy Supply Chain Through DSCSA On-Demand Webinar

The fast-approaching November 2020 Drug Supply Chain Security Act (DSCSA) regulation requires that pharmacies receive only serialized products. Pharmacies are currently preparing for this serialization requirement while seizing the opportunity to transform their business and supply chains.

Watch this on-demand webinar featuring Tom McHugh, formerly the senior director of supply chain operations at CVS, as he explains why he sees DSCSA compliance as a catalyst for pharmacies to improve supply chain and business operations. During the webinar, we also discuss how serialization can lead to supply chain improvements such as:

- Improving recall management processes
- Reducing the impact of drug shortages
- Achieving end-to-end inventory visibility

Watch today to learn how your pharmacy can take advantage of the upcoming regulations and transform the pharmacy supply chain to improve patient care.
