# Russia Compliance: 10 Minute Strategy Briefing

Russia will present the most challenging set of track and trace requirements to date—with incredibly demanding deadlines. Watch TraceLink VP of Industry Marketing Brian Daleiden outline the complexities of Russian compliance, and what pharma companies must know as they plan their Russia strategy.

*April 2020 Update: The current compliance deadline for all medicines manufactured in Russia or imported into Russia is July 1, 2020. As of December 31, 2019, medicines that fall under the government's HCN/7 Nosologies guidelines are expected to comply with the current serialization requirements, which comprise 4 elements: Product Code (GTIN), Serial Number, Crypto Key, and Crypto Code. Expiry Date and Batch Number are no longer required. See the latest Russia Regulatory Updates for news on Russia Track and Trace regulations.*
