A Day in the Life of Handling Recalls

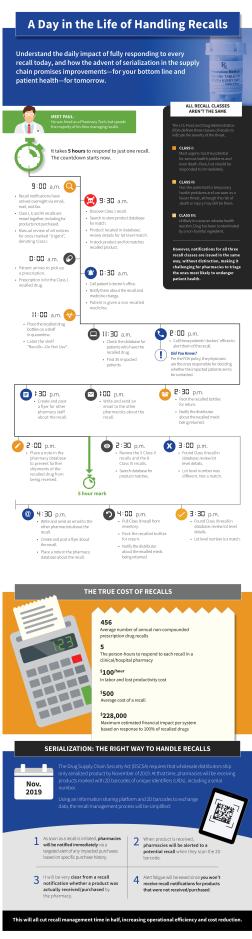

If you oversee pharmacy operations, you know how busy your team is each day with dispensing medicines, communicating with physicians, and other core tasks. When a drug recall is added into the mix, managing that recall can quickly derail pharmacy operations for the day.

View this infographic to:

- Get a glimpse into a day in the life of recall management.
- Understand the true cost of recalls to your bottom line and patient health.
- Learn why serialization is the right way to handle recalls.
