The Pharmacy of the Future: Embracing the Digital Transformation

Serialized medicines bring the opportunity to completely transform the way pharmacies do business today. Have you thought about how serialized data combined with an end-to-end digital network could prevent drug shortages? Or give you true supply visibility to drive down costs? The digital transformation of the pharmacy is at hand.

Envision your pharmacy's future with this infographic, and learn:

- How the traditional pharma supply chain is broken
- Why the lack of information impacts drug safety
- How serialization sets the table for digital transformation
- Ways you can develop your digital strategy to reap new value

The Pharmacy of the Future: — Embracing Digital Transformation —

How DSCSA, data, and a digital network can rebuild the broken pharmaceutical supply chain, drive new business value in your pharmacy, and deliver safer care to patients

► The Traditional Pharma Supply Chain is Broken

► Lack of Information Impacts Drug Safety and Availability

DSCSA Sets the Table for Digital Transformation

► Building Your Digital Strategy in the Pharmacy

Your approach to DSCSA requirements can transform your operations using a digitally-optimized strategy where verification, product visibility, and data exchange can happen in a fraction of a second.

► A Digital Network Protects Patients, Adds Value, and Transforms Your Pharmacy

THOUSANDS OF HOSPITALS AND PHARMACIES RELY ON THE TRACELINK NETWORK

Only TraceLink's digital network solutions enable the transformative business value you can achieve from serialization.
