Understanding Russia Compliance Complexities and Preparation Timeline

April 2020 Update: The current compliance deadline for all medicines manufactured in Russia or imported into Russia is July 1, 2020. As of December 31, 2019, medicines that fall under the government's HCN/7 Nosologies guidelines are expected to comply with the current serialization requirements, which comprise 4 elements: Product Code (GTIN), Serial Number, Crypto Key, and Crypto Code. Expiry Date and Batch Number are no longer required. See the latest Russia Regulatory Updates for news on Russia Track and Trace regulations.

Today, more than 140 attendees from nearly 100 unique companies tuned in to learn how to comply with complicated Russia compliance requirements and deadlines.

The first deadline, applicable to 12 Nosologies products, is July 1, 2019. By 2020, all medicines imported into and traded within Russia must comply with the regulations.

Watch this on-demand recording to learn:

- The basics of Russia compliance—and what makes it so complex.
- Marketing Authorization Holder/wholesaler requirements.
- Preparation timelines, and why you need to start now.
