DSCSA Risks & Regulations for Hospitals and Pharmacies

DSCSA for Hospitals & Pharmacies

Risks, Regulations, and Selecting a Solution

If you dispense prescription medicines to patients and don't have a Drug Supply Chain Security Act compliance solution in place today, your pharmacy is exposed to significant risks.

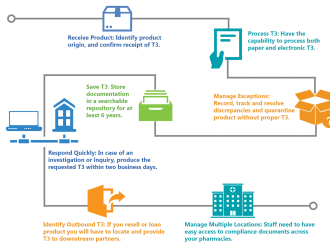

The current requirements are just the beginning:

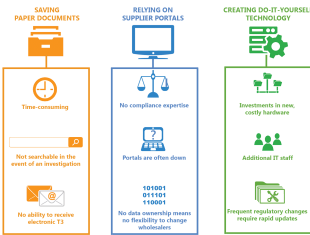

With the advent of serialization, achieving compliance will become increasingly complex.

DSCSA introduces requirements that, without the right solution in place, will create operational inefficiencies and detract from patient care.

Choosing the wrong compliance approach can cost you valuable time and resources, and leave you out of compliance when changes to the law occur.

TraceLink delivers the only proven solution designed to drive better patient outcomes by helping you achieve both DSCSA compliance and strategic objectives.

4,200+
U.S. healthcare locations rely on TraceLink for DSCSA lot-level compliance

With Product Track End-to-End Administration services, TraceLink takes on your DSCSA workload

- ✓ Retrieves and identifies product data
- ✓ Validates and manages all product master data
- ✓ Monitors and resolves any exceptions
- ✓ Processes and securely stores T3
- ✓ Converts paper T3 to electronic
- ✓ Prepares documents in the event of an inquiry
- ✓ Identifies outboard T3 for resale or loan

1,300+
Drug suppliers on our network, ready to connect

262M
Transaction histories processed

90%
of U.S. hospitals are covered by our GPO partnerships and associations

100%
of Becker's Hospital Review's 500 Great Hospitals are on the TraceLink network

2,600+
TraceLink Cloud Community members: healthcare organizations, wholesalers, and manufacturers, collaborating and sharing ideas

- We were afraid we would get behind with compliance. We have a lot of other priorities, so it would have been difficult to handle ourselves. We knew we needed a streamlined process—TraceLink's solution makes it easy.
Director of Pharmacy
- DSCSA is improving the safe delivery of medicines to patients and we felt it was important to contract with an industry-leading software company for this critical legal requirement.
Vice President of Pharmacy
- Start now. TraceLink will do the hard work of figuring out how to enable you to stay compliant down the road. It's reassuring to have a partner that—if the FDA does their job—has confirmed that I could call and ask for help.
