TraceLink Ranked #340 Fastest Growing Company in North America on Deloitte's 2020 Technology Fast 500

TraceLink Inc., the leading digital platform company for the life sciences industry, today announced it ranked #340 on Deloitte's Technology Fast 500™, a ranking of the 500 fastest growing technology, media, telecommunications, life sciences and energy tech companies in North America now for over 25 years. For the sixth consecutive year, TraceLink has placed on the list, and with a 293 percent revenue growth from 2015 to 2019, ranked as the #11 fastest growing software company overall in Massachusetts.

"We are honored to be recognized as one of the fastest growing companies for the sixth year in a row," said Shabbir Dahod, President and CEO, TraceLink. "After a remarkable year of continued growth and execution, including the development of our new OPUS digital network platform and the release of our newest solutions, Agile Process Teams and Serialized Product Intelligence, we are pleased to be able to help support organizations providing relief during today's pandemic, through our dedicated COVID-19 grant donation. We look forward to continuing to drive innovation that places the patient at the center of the supply chain and further enable network members to work together for the greater good."

bringing hundreds of thousands of pharmaceutical companies and healthcare organizations closer to their patients on its digital supply network. In today's world of unpredictable supply chain disruptions, TraceLink solutions bring the precision, agility and visibility necessary for high performance digital supply chains to thrive in a constantly evolving environment, enabling companies to ensure every patient gets the medicines they need, when they need them, safely and securely.

“For more than 25 years, we’ve been honoring companies that define the cutting edge and this year’s Technology Fast 500 list is proof positive that technology — from software and digital media platforms, to biotech — truly does permeate so many facets of our lives,” said Paul Silverglate, vice chairman, Deloitte LLP and U.S. technology sector leader. “We congratulate this year’s winners, especially during a time when innovation is needed more than ever to address the monumental challenges posed by the pandemic.”

“Each year the Technology Fast 500 listing validates how important technology innovation is to our daily lives. It was interesting to see this year that while software companies continued to dominate, biotech companies rose to the top of the winners list for the first time, demonstrating that new categories of innovation are accelerating in the pursuit of making life easier, safer and more productive,” said Mohana Dissanayake, partner, Deloitte & Touche LLP, and industry leader for technology, media and telecommunications, within Deloitte’s audit and assurance practice. “We extend sincere congratulations to these well-deserved winners — who all embody a spirit of curiosity, and a never-ending commitment to making technology advancements possible.”

About Deloitte’s 2020 Technology Fast 500™

Now in its 26th year, Deloitte’s Technology Fast 500 provides a ranking of the fastest-growing technology, media, telecommunications, life sciences and energy tech companies — both public and private — in North America. Technology Fast 500 award winners are selected based on percentage fiscal year revenue growth

from 2016 to 2019.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least $US50,000, and current-year operating revenues of at least $US5 million. Additionally, companies must be in business for a minimum of four years and be headquartered within North America.
