DSCSA 2023 Webinar Series: How to Ensure Supply and Create Business Value with DSCSA Compliance for Drug Manufacturers and Wholesale Distributors

The U.S. Drug Supply Chain Security Act (DSCSA) requires manufacturers and distributors to provide serialized transaction information and transaction statements for each product they sell. Complying with this mandate may require the configuration of thousands of B2B integrations by November 27, 2023, and that’s just one of many challenges. Is your organization ready? This webinar series is designed to help you prepare for DSCSA 2023, exploring the different risks and opportunities that may present themselves along this journey.

How to Prepare for Interoperable Data Exchange and the Verification Requirements of DSCSA

Watch now on demand.

DSCSA 2023 requires pharmaceutical supply chain trading partners to be able to exchange data in a “secure, interoperable, electronic manner” in accordance with FDA standards. Attend this session to discover what this means for dispensers, why procuring this data from suppliers is so complex, and how the OPUS platform from TraceLink was purpose-built to ease this process.
