DSCSA 2023 Compliance for Dispensers Solution Brief

Integrate once, interoperate with all suppliers to achieve item-level traceability compliance and improve operational efficiency.

Under DSCSA 2023, dispensers will be responsible for meeting enhanced FDA verification and traceability requirements. To do so, they'll need to be able to securely receive Transaction Information (TI) and Transaction Statement (TS) data for every item they receive.

TraceLink **DSCSA 2023 Compliance for Dispensers** can help. **Download this solution brief** to see how our network-based approach enables dispensers to receive item-level EPCIS data for every item they sell, and verify suspect products as needed. Benefits include:

- Seamlessly receive EPCIS data, with no-cost onboarding for suppliers.
- Powerful scalability to keep up with increased transaction volume from item-level traceability.
- Disruption-free upgrades with new functionality added in response to evolving regulations.

Get the solution brief today and see how you can achieve DSCSA compliance while improving operational efficiency.
