Slash Product Recall Management Time by 40% with TraceLink Digital Recalls

Pharmacies today are facing major staffing issues and time constraints—and the traditional approach to product recall management is riddled with time-consuming, manual tasks that add to their burden. TraceLink Digital Recalls is the answer.

Watch these video highlights from our **Digital Recalls webinar** to learn how TraceLink can help your pharmacy staff reduce time spent coordinating administrative recall tasks by 40%, and reduce the number of shelf walks necessary to retrieve recalled products by 47%.

TraceLink Digital Recalls is a collaborative, end-to-end recall workflow orchestration solution that provides real-time recall notifications sourced directly from the U.S. Food and Drug Administration (FDA) in a fully digital, easy-to-understand format that enables an immediate, coordinated response across all pharmacy locations while reducing the risk of recalled products reaching patients.

Video Highlights:

- **00:14 -** Product Recall Management Challenges
- **00:26 -** Digital Recalls Key Capabilities
- **02:13 -** Digital Recalls Product Roadmap
