Reduce Staff Time Spent on Recall Management by 40%: TraceLink Digital Recalls Product Demo

The traditional approach to product recall management is full of time-consuming manual tasks that hinder pharmacists and pharmacy technicians, who are already facing major time constraints and staffing issues. How can you save them valuable time? TraceLink Digital Recalls is the answer.

TraceLink Digital Recalls is a collaborative, end-to-end recall workflow orchestration solution that provides real-time recall notifications sourced directly from the U.S. Food and Drug Administration (FDA) in a fully digital, easy-to-understand format that enables an immediate, coordinated response across all pharmacy locations while reducing the risk of recalled products reaching patients.

See how TraceLink can help your pharmacy staff reduce time spent coordinating administrative recall tasks by 40%, and reduce the number of shelf walks necessary to retrieve recalled products by 47%. Watch this product demonstration today.
