Rapid Exception Resolution: The Key to Enhancing Integrated Supply Planning and Execution for Supply Chain Leaders - Video

Given today's problematic mix of demand volatility and supply uncertainty, it is more difficult than ever for supply chain leaders to develop and execute integrated supply plans that achieve the highest order fill rates while meeting company operating targets. TraceLink Supply Chain Work Management capabilities close the gaps created by siloed internal teams, external partners, and disconnected enterprise systems, including ERP and supply chain planning, by enabling real-time, cross-company collaboration for resolving issues and exceptions.
