End-to-End Supply Chain Transformation Enabled by a Digital Network Platform

TraceLink CEO and President Shabbir Dahod discusses how the digital integration and orchestration of products, partners, and processes can transform supply chain performance, feeding internal stakeholders and cross-company teams with new levels of visibility, collaboration, and intelligence. The TraceLink network connects you to all of your suppliers, customers, and partners, radically improving supply chain resiliency, cost, service, and predictability. Watch this video of Shabbir Dahod's keynote address from FutureLink Boston to learn more.

Video Highlights:

01:35 - How supply chain digitalization has evolved from serialization to multienterprise orchestration of products, partners, and processes
04:33 -Why DSCSA was critical for sparking the largest end-to-end digitalization effort ever attempted by any industry
11:25 - Why DSCSA is just the beginning of a broader end-to-end supply chain digitalization journey full of endless opportunities
13:33- How the next generation of TraceLink applications and solutions will help you orchestrate end-to-end supply chain operations
16:01 - How OPUS Ensemble makes it easy to manage multiple aspects of your
