- Select the Delete − icon, to remove an individual line item, where available.
- Select the branch icon, to add a new line item in the inserted table, where available
- New shipping advices can also be created by selecting the New + New button on the Shipping Advices Details screen for an existing shipping advice.

### Submitting a draft shipping advice

Complete and submit a saved shipping advice in the draft state.

1. Select a [MPL Network] from the Network drop-down in the header.
2. Select a Team (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
3. Select Logistics - Provider from the left menu.

Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

4. Select Shipping Advices.
5. Select Filter [Filter] button to find the shipping advice in Draft state.
6. Select the Shipping Advice Number link in the results table.
7. Select the Edit [Edit] button.
8. In the Transaction Information section, select Submitted from the Process Status drop drown.
9. Confirm the shipping advice details and select the Edit icon associated with that line item to modify the fields if required.
10. Select the Move To button at the top of the screen.

    The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

11. Select the Save button.

    The shipping advice is submitted.

**Tips**

- Select the shipping advice number row and then select the Delete icon on the top of the Search Shipping Advices screen, to delete a shipping advice in draft state.

A deleted transaction cannot be retrieved.

# Search and view shipping advices

## Search for and view shipping advices

Perform this task to search for shipping advices sent or received by buyers or sellers to view their details. Viewing the details of a shipping advices enables buyers or sellers to quickly access order information (e.g. the quantity for each line item in an order) in TraceLink without having to search through the actual B2B message.

1. Select a [MPL Network] from the Network drop-down in the header.
2. Select a Team (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
3. Select Logistics - Provider or Logistics -Client from the left menu.

   Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
4. Select Shipping Advices.
5. Select the Filter button.
6. In the Filters panel, fill in one or more of the following fields to filter the results:

   a. State drop-down – The state of the shipping advice:

      - Draft – The transaction is in the draft state.
      - Submit – The transaction has been created.
      - Processing – The application is getting ready to handle incoming transactions by doing some initial tasks, such as copying the files it receives.
      - Processed – The application changes the standard information into a format that is easy to use and specific to your transaction.
      - Preparing to Send – The application is getting ready to send out a

transaction and is doing some initial tasks, like copying the necessary information for the process.
    - Sending –The application sends out business transactions to the buyer or supplier.
    - Sent – The transaction is successfully completed and shared with the receiving party.
b. Client type-ahead – Displays only if the menu item is Sent Shipping Advices. The name of the company the shipping advices was sent to.
   If the name of the company is not present in the Owners master data then the company's name must be entered manually.
c. Provider type-ahead – Displays only if the menu item is Received Shipping Advices. The name of the company the shipping order was received from.
   If the name of the company is not present in the Owners master data then the company's name must be entered manually.
d. Shipping Advice Number field – A unique identifier of the shipping advice.
e. Shipping Advice Date field – The date of the shipping advice was initiated.
f. Shipped Date/Time field – The date and time the delivery is shipped.
g. Last Modified field – The period of time in which the shipping advice was last updated:
    - Today – The transaction was modified within the last few hours.
    - Yesterday – The transaction was updated within the past 24 hours.
    - Last Week – The transaction was modified in the last 7 days.
    - Last Month – The transaction was modified in the last 30 days.
    - Last 3 Months – The transaction was modified in the last 90 days.
    - Last 6 Months – The transaction was modified in the last 180 days.
    - Custom Range – Select a specific period of time that the transaction was modified in from the calendar.

7. Select Apply.

A list of shipping advices displays based on the filter results.

8. Select the link for the shipping advice from the results table.

   The View Shipping Advices screen displays.

9. To view all fields for each line item, select the View icon on the Shipping Advices Details screen.

# Reprocess and resubmit shipping advices

### Reprocessing a shipping advice

After the shipping advice is submitted, the user might encounter an error and the processed status will be set to Paused With Error. Use the following procedure to resolve any error messages encountered while submitting shipping advices.

1. Select a [MPL Network] from the Network drop-down in the header.
2. Select a Team (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
3. Select Logistics - Provider from the left menu.
   Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
4. Select Shipping Advices.
5. Select Filter button to find the shipping advice in Processing, Processed, Preparing to Send, or Sending state.
6. Select the Shipping Advice Number link in the results table.
7. View the following fields for error in the Transaction Information section:
   - Process Status - Displays the status of the submitted transaction.
   - Last Transaction Error - Displays the error message.
8. Select the Edit button..

9. In the Transaction Information section, select Submitted from the Process Status drop drown.
10. Select the Save button.

    The shipping advices request is moved from Processing state to Sending state indicating that the shipping advices is submitted successfully.

Do not select the Move To button, as it will cause the transaction to skip a workflow state, preventing successful delivery.

### Resubmit shipping advices

If a transaction is successfully sent to a partner but an issue occurs on the partner's side (e.g. in their ERP system), the sender can avoid re-entering all the details by rolling back to a previous workflow state and resending the transaction, thus saving time and effort for both parties.

1. Select a [MPL Network] from the Network drop-down in the header.
2. Select a Team (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
3. Select Logistics - Provider from the left menu.

   Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
4. Select Shipping Advices.
5. Select a Shipping Advice Number row in Sent state.
6. Select the Edit button.

   The state of the shipping advice is automatically moved to the Sending state.
7. Select the Move To button at the top of the screen.

   The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

8. Select the Save button.

   The shipping advice is submitted.

The statues of the shipping advice moves to Sent state.
