What's new in the OPUS Reports and Dashboards, version 2024.1.0 release

Explore what's new in the OPUS Reports and Dashboards, version 2024.1.0 release. To learn more about what's new in the OPUS Reports and Dashboards, version 1.0.0 that provides the user interface for this app, see [What's new in the OPUS Reports and Dashboards, version 1.0 release](#).

Release information

This document describes the TraceLink capabilities included in the OPUS Reports and Dashboards, version 2024.1.0 app release, which is available on Validation and Production on 28 Sep 2024.

The following apps are impacted by this release and will be updated to the version listed:

- OPUS Reports and Dashboards, version 2024.1.0

Solutions supported by this app version:

- OPUS Reports and Dashboards, version 1.0.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

These release notes are subject to change based on the deployment of the release. In the event of changes, the release notes and any related documentation will be updated within one week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Patch releases

The following patches are released for this version:

- OPUS Reports and Dashboards, version 2024.1.1 is available on Validation and Production on 29 Oct 2024.

These patches are cumulative, and the most recent patch release includes functionality from all previous versions.

Revisions

Date	Revision	Description
28 Sep 2024	01	Initial version.
29 Oct 2024	02	Issue information for the OPUS Reports and Dashboards, version 2024.1.1 release is added: <ul style="list-style-type: none">• 7 issues are added to the Resolved issues.• 0 issues are added to the Known issues.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality is included in this release.

These features are changes to the app to support another feature and do not have any impacts on their own.

View, Create, and Manage Query Objects

This feature includes support to search for, view, create, edit, and manage query objects. For more information about the corresponding solution feature, see the

OPUS Reports and Dashboards, solution version 1.0 release.

Impact analysis

The impacts for this feature are the same as the View, Create, and Manage Query Objects feature in the OPUS Reports and Dashboards, version 1.0.0 release.

View, Create, and Manage Reports

This feature includes support to search for, view, create, and edit reports. For more information about the corresponding solution feature, see the OPUS Reports and Dashboards, solution version 1.0 release.

Impact analysis

The impacts for this feature are the same as the features in View, Create, and Manage Reports in the OPUS Reports and Dashboards, version 1.0.0 release.

View, Create, and Manage Dashboards

This feature includes support to search for, view, create, and edit dashboards that leverage built-in charts. For more information about the corresponding solution feature, see the OPUS Reports and Dashboards, solution version 1.0 release.

Impact analysis

The impacts for this feature are the same as the View, Create, and Manage Dashboards feature in the OPUS Reports and Dashboards, version 1.0.0 release.

Resolved issues

OPUS Reports and Dashboards 2024.1.1

The following issues are resolved in this release. The prefixes are for internal TraceLink tracking purposes and do not mean anything to customers.

ID	Interface	Issue Description
TL-53718: Fix Drag-and-Drop Panel Title	Web UI	The Available Object Fields panel should be named Drag and Drop Report. This issue is resolved.
TL-53230: Tertiary Object Selection in Query Object Does Not Bring Back Data In Report	Web UI	Data is not properly displayed in reports using query objects that are created with more than two objects (i.e. a secondary object and a tertiary object). This issue is resolved.
TL-52714: System Does Not Send All Columns Available for Filters	Web UI	The list of columns available for filters is incomplete. This issue is resolved.
TL-52707: Context Not Generated Correctly for Non-TraceLink Paths	Web UI	Paths for subtypes created by parties other than TraceLink are not displayed properly. This issue is resolved.
TL-52707: Logic Error Causes Data to be Displayed Incorrectly	Web UI	When data is retrieved for a primary and secondary object, the arrays in each object are not properly displayed as records on the table. This issue is resolved.
TL-52707: Logic Error Causes Secondary Objects to Not Display All Data	Web UI	Fields are not properly displayed for secondary objects. This issue is resolved.
TL-52707: Unused Columns Displayed in UI	Web UI	Unnecessary column headers are displayed in reports. This issue is resolved.

OPUS Reports and Dashboards 2024.1.0

There are no resolved issues in this release.

Known issues

OPUS Reports and Dashboards 2024.1.1

There are no known issues in this release.

OPUS Reports and Dashboards 2024.1.0

There are no known issues in this release.
