How TraceLink and Arcolab are Digitalizing India's Life Sciences Supply Chain

With the majority of India's pharmaceutical supply chains still relying on manual processes, the push for digitalization is more crucial than ever. Satheesh Kumaran, Serialization Head at Arcolab, explores how TraceLink enables cost-effective, real-time integration between India's manufacturers and their supply chain partners, boosting end-to-end visibility and operational efficiency.

Kumaran also highlights how digital transformation not only addresses compliance and traceability challenges but also unlocks opportunities to enhance production planning, order accuracy, and collaboration between CMOs and pharma companies. Discover how Arcolab and TraceLink are shaping the future of supply chain digitalization in India. Watch the video now.

Video Highlights:

- 00:11 - Can you provide some background on Arcolab?
- 00:49 - What are the top supply chain challenges for your customers in India?
