What's new in the OPUS Reports and Dashboards, version 2024.2.0 release

OPUS Reports and Dashboards is no longer a separate TraceLink product, and is available as part of the OPUS Platform.

Explore what's new in the OPUS Reports and Dashboards, version 2024.2.0 release. To learn more about what's new in the OPUS Reports and Dashboards, version 2.0.0 that provides the user interface for this app, see [What's new in the OPUS Reports and Dashboards, version 2.0 release](#).

Release information

This document describes the TraceLink capabilities included in the OPUS Reports and Dashboards, version 2024.2.0 app release, which is available on Validation and Production on 17 Dec 2024.

The following apps are impacted by this release and will be updated to the version listed:

- OPUS Reports and Dashboards, version 2024.2.0

Solutions supported by this app version:

- OPUS Reports and Dashboards, version 2.0.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

These release notes are subject to change based on the deployment of the release. In the event of changes, the release notes and any related documentation will be updated within one week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Revisions

Date	Revision	Description
17 Dec 2024	01	Initial version.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality is included in this release.

These features are changes to the app to support another feature and do not have any impacts on their own.

Copy and Create New Versions of Existing Reports and Dashboards and Share Selected Reports and Dashboards with Partners

This feature includes support for creating new reports and dashboards by copying existing query objects, reports, and dashboards; creating new versions of existing query objects, reports, and dashboards; and sharing reports and dashboards with Partners. For more information about the corresponding solution feature, see the OPUS Reports and Dashboards, solution version 2.0 release.

Impact analysis

The impacts for this feature are the same as the Copy and Create New Versions of Existing Reports and Dashboards and Share Selected Reports and Dashboards with

Partners feature in the OPUS Reports and Dashboards, version 2.0.0 release.

Resolved issues

OPUS Reports and Dashboards 2025.1.0

The following issue is resolved in this release. The prefix is for internal TraceLink tracking purposes and does not mean anything to customers.

ID	Interface	Issue Description
TL-55727: Performance Improvements for ORD Pages	None	ORD performance can be improved by updating the code base to make it more efficient. This issue is resolved.

Known issues

OPUS Reports and Dashboards 2024.2.0

There are no known issues in this release.
