

U.S. Medical Devices Manufacturer Streamlines Supply Chain

A medical devices manufacturer chose TraceLink and a certified TraceLink Solution Partner to help it rapidly deploy independent, compliant, and automated supply chain operations across its supply chain.

The medical devices manufacturer transformed its supply chain operations with TraceLink, achieving seamless digital orchestration and integration in only three short months.

By leveraging TraceLink MINT (Multienterprise Information Network Tower), powered by OPUS, the team deployed end-to-end information exchange, flexible workflows, and standardized communications with external partners.

Automated order-to-cash transactions—including purchase orders, purchase order acknowledgements, ASNs, invoices, and shipping advice—eliminated manual steps and accelerated fulfillment while freeing up valuable IT resources to focus on transformative growth projects.

B2B/API integrations ensured real-time data flow, while the intuitive TraceLink UX
