- d. Carrier type-ahead - Displays only if the menu item is Received Carrier Shipment Statuses The name of the company the carrier shipment status was received from.

If the name of the company is not present in the Owner's master data then the company's name must be entered manually.

- e. Last Modified drop-down – The period of time in which the carrier shipment statuses was last updated:
- Today – The transaction was modified within the last few hours.
 - Yesterday – The transaction was updated within the past 24 hours.
 - Last Week – The transaction was modified in the last 7 days.
 - Last Month – The transaction was modified in the last 30 days.
 - Last 3 Months – The transaction was modified in the last 90 days.
 - Last 6 Months – The transaction was modified in the last 180 days.
 - Custom Range – Select a specific period of time that the transaction was modified in from the calendar.

10. Select Apply.

A list of carrier shipment statuses displays based on the filter results.

11. Select the link for the carrier shipment statuses from the results table.

The View Carrier Shipment Statuses screen displays.

12. To view all fields for each line item, select the View  icon on the Carrier Shipment Statuses Details screen.

Reprocess and resubmit carrier shipment statuses

Reprocess carrier shipment statuses

After the carrier shipment status is submitted, the user might encounter an error and the processed status will be set to Paused With Error. Use the following procedure to resolve any error messages encountered while submitting a carrier shipment status.

1. Select the Main Menu  icon.

2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Transportation - Carrier from the left menu.

Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

7. Select Carrier Shipment Statuses.

8. Select the Filter button to find the carrier shipment status in Processing, Processed, Preparing to Send, or Sending state.
9. Select the Carrier Shipment Status Number link in the results table.
10. View the following fields for error in the Transaction Information section:
 - Process Status - Displays the status of the submitted transaction.
 - Last Transaction Error - Displays the error message.

11. Select the Edit button..
12. In the Transaction Information section, select Submitted from the Process Status drop down.

13. Select the Save button.

The carrier shipment status request is moved from Processing state to Sending state indicating that the carrier shipment status is submitted successfully.

 Do not select the Move To button, as it will cause the transaction to skip a workflow state, preventing successful delivery.

Resubmit carrier shipment status

If a transaction is successfully sent to a partner but an issue occurs on the partner's side (e.g. in their ERP system), the sender can avoid re-entering all the details by rolling back to a previous workflow state and resending the transaction, thus saving time and effort for both parties.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Transportation - Carrier from the left menu.
 Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

7. Select Carrier Shipment Statuses.
8. Select a Carrier Shipment Status Number in Sent state.

9. Select the Edit  button.

 The state of the carrier shipment status is automatically moved to Sending state.

10. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

11. Select the Save  button.

The carrier shipment statuses is submitted.

The statuses of the carrier shipment status moves to Sent state.
