Material issued

Suppliers use material issued transaction to communicate information about changes in inventory levels when materials are withdrawn or issued for different processes or activities.

Create and submit material issued updates

Perform this task to create and submit material issued updates. Additionally, suppliers can begin work on a material issued and save it for completion at a later time.

Create and submit a new material issued update

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Manufacturing - Supplier from the left menu.
 Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Material Issued.

8. Select the New  button.

9. Enter the material issued number in the Material Issued Number field.

10. Select the Save  button.

The screen refreshes with the saved material issued in the draft state and with the required sections populated.

11. Select the Edit  button.

12. In the Transaction Information section, select Submitted from the Process Status drop down.

13. In the Material Information section, fill in the following fields:

i. Material Issued Number field – The unique identifier for the material issued.

This field auto populates the value entered New Material Issued screen.

ii. Material Issued Date field – The specific date when the material records were last modified or updated.

iii. Action drop-down – A brief description stating the purpose of the transaction.

14. In the Reporter and Client section, fill in the following fields under Reporter group:

i. Reporter Location type-ahead field – The name of the company or location sending the material issued. This field pulls from the Owner's company and location master data.

The remaining Reporter fields are auto populated with the values from the company or location's master data entry. If the name of the company is not present in the Owner's master data, the company name must be entered manually.

- ii. Country drop-down - The two-letter country code with country name for this location.
 - iii. State field - The state or region for this location.
 - iv. Location ID Type drop-down - The identifier type used for this company or location.
 - v. Location ID Value field - The value associated with the identifier type.
15. In the Reporter and Client section, fill in the following fields under Client group:

- i. Company type-ahead field - The name of the customer receiving the material issued. This field pulls from the Owner's company and location master data.

The remaining Client fields are auto populated with the values from the company or location's master data entry. If the name of the company is not present in the Owners master data, the company name must be entered manually.

- ii. Party ID Type drop-down - The identifier type used for this company or location.
- iii. Party ID Value field - The value associated with the identifier type.

16. In the Line Items section:

- a. Select the Add **+** icon. At least one line item is required to submit a materials issued.

b. In the New Line Item panel, fill in the following fields under Item Information section:

- i. Item field - The name of the product. If the user enters an item code instead, the field automatically displays the corresponding item name.

The Item Code Type, Item Code Value and Description fields are

auto populated with the values from the Owner's product master data entry for the product. If the product name is not present in the Owner's product master data then the product name must be entered manually.

- ii. Item Code Type field – The product code type (e.g. IN-Product Code).
- iii. Item Code Value field – The product code.
- iv. Description field – A brief description of the product. If the description is not present in the Owners product master data then the description must be entered manually.
- v. Quantity field – The quantity of item selected or provided.
- vi. Unit of Measure drop-down – The unit in which the line item is measured.
- vii. Plant Identifier field – A unique code or number used to designate a specific manufacturing, production, or storage facility.
- viii. Storage Location field – A specific area within a warehouse, plant, or facility designated for storing materials.
- ix. Customer Lot Number field – A unique identifier assigned by the customer to a specific batch or lot of products received from a supplier.
- x. Supplier Lot Number field – A unique identifier assigned by a supplier to a specific batch or production lot of a product.
- xi. Sales Order Number field – A unique identifier assigned to a specific sales order.
- xii. Sales Order Line Number field – A unique identifier assigned to each individual item or line within a sales order.
- xiii. PO Number field –The unique identifier of the purchase order.
- xiv. PO Line Number field – A specific line item within a purchase order that describes individual products or quantities ordered.
- xv. Process Order Number field – A unique identifier assigned to a

specific production or manufacturing order.

- xvi. Process Order Line Number field - A unique identifier assigned to each specific line item within a process order.
- xvii. Status Code drop-down - Movement Type of line item. Valid values are
 - TRANSFERPOSTINGSUBCONTRACTOR
 - TRANSFERPOSTINGSUBCONTRACTORREVERSE
- xviii. Manufactured Date field - The date when the item or product is manufactured.
- xix. Expiration Date field - The line item's expiration date.
- xx. Line Notes field - Additional information about the line item being added.

c. Select Apply.

The new line item is added to the material issued.

17. In the Notes section, select the Add  icon to enter any additional comments or instructions.

18. To submit the material issued:

To save the material issued in a Draft state and finish it later, ensure the

Move To button is not selected and then select the Save  button in the draft state.

a. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

b. Select the Save  button.

The material issued is submitted.

Tips

- Select the Add  icon, to add a new line item, where available.
- Select the Delete  icon, to remove an individual line item, where available.
- New material issueds can also be created by selecting the New  button on the Material Issued Details screen for an existing material issued.

Submit a draft material issued

Complete and submit a saved material issued in the draft state.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Manufacturing - Supplier from the left menu.
 Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Material Issued.
8. Select Filter  button to find material issued update in Draft state.
9. Select Material Issued Number link in the results table.
10. Select the Edit  button.
11. In the Transaction Information section, select Submitted from the Process

Status drop down.

12. Confirm the material issued details and select the Edit  icon associated with that line item to modify the fields if required.
13. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

14. Select the Save  button.

The material issued is submitted.

Tips

- Select the material issued number row and then select the Delete  icon on the top of the Search Material Issued screen, to delete a material issued in draft state.

A deleted transaction cannot be retrieved.

Search and view material issued updates

Search for and view material issued updates

Perform this task to search for and view the details of the material issued updates sent or received by suppliers or customers. Viewing the details of a material issued enables suppliers or customers to quickly access material information (e.g. the quantity for each line item in a transaction) in TraceLink without having to search through the actual B2B message.

1. Select the Main Menu  icon.

2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Manufacturing - Customer or Manufacturing - Supplier from the left menu.

Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

7. Select Material Issued.

8. Select the Filter  button.

9. In the Filters panel, fill in one or more of the following fields to filter the results:

- Material Issued Number field - The unique identifier for the material issued.
- State drop-down - The state of the material issued:
 - Draft - The transaction is in the draft state.
 - Submit - The transaction has been created.
 - Processing - The application is getting ready to handle incoming transactions by doing some initial tasks, such as copying the files it receives.
 - Processed - The application changes the standard information into a format that is easy to use and specific to your transaction.
 - Preparing to Send - The application is getting ready to send out a transaction and is doing some initial tasks, like copying the necessary information for the process.
 - Sending - The application sends out business transactions to the buyer or supplier.

- Sent - The transaction is successfully completed and shared with the receiving party.
- Client type-ahead - Displays only if the menu item is Sent Material Issued in Manufacturing - Supplier. The name of the company the material issued was sent to.
If the name of the company is not present in the Owners master data then the company's name must be entered manually.
- Reporter type-ahead - Displays only if the menu item is Received Material Issued in Manufacturing - Customer. The name of the company the material issued was received from.
If the name of the company is not present in the Owner's master data then the company's name must be entered manually.
- Last Modified drop-down - The period of time in which the material issued was last updated:
 - Today - The transaction was modified within the last few hours.
 - Yesterday - The transaction was updated within the past 24 hours.
 - Last Week - The transaction was modified in the last 7 days.
 - Last Month - The transaction was modified in the last 30 days.
 - Last 3 Months - The transaction was modified in the last 90 days.
 - Last 6 Months - The transaction was modified in the last 180 days.
 - Custom Range - Select a specific period of time that the transaction was modified in from the calendar.

10. Select Apply.

A list of material issueds displays based on the filter results.

11. Select the link for the material issued from the results table.

The View Material Issued screen displays.

12. To view all fields for each line item, select the View icon on the Material

Issued Details screen.

Reprocess and resubmit material issued updates

Reprocess material issued update

After the material issued update is submitted, the user might encounter an error and the processed status will be set to Paused With Error. Use the following procedure to resolve any error messages encountered while submitting material issued updates.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Manufacturing - Supplier from the left menu.
 Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Material Issued.
8. Select Filter  button to find material issued transaction in Processing, Processed, Preparing to Send, or Sending state.
9. Select Material Issued Number link in the results table.
10. View the following fields for error in the Transaction Information section:
 - Process Status - Displays the status of the submitted transaction.
 - Last Transaction Error - Displays the error message.
11. Select the Edit  button..
12. In the Transaction Information section, select Submitted from the Process

Status drop down.

13. Select the Save  button.

The material issued updates request is moved from Processing state to Sending state indicating that the material issued update is submitted successfully.

 Do not select the Move To button, as it will cause the transaction to skip a workflow state, preventing successful delivery.

Resubmit material issued update

If a transaction is successfully sent to a partner but an issue occurs on the partner's side (e.g. in their ERP system), the sender can avoid re-entering all the details by rolling back to a previous workflow state and resending the transaction, thus saving time and effort for both parties.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Manufacturing - Supplier from the left menu.
-  Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Material Issued.
8. Select a Material Issued Number in **Sent** state.

9. Select the Edit  button.

 The state of the material issued is automatically moved to Sending state.

10. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

11. Select the Save  button.

The material issued is submitted.

The status of the material issued moves to Sent state.
