Global Pharma Chooses MINT to Digitalize External Manufacturing and Procurement

A global pharmaceutical and medical devices manufacturer selected **TraceLink MINT** to orchestrate its external manufacturing and supplier network. With MINT, the company will digitalize and automate supply transactions to improve responsiveness and execution across external manufacturing and procure-to-pay (P2P) processes.

Customer Business Challenges

- Manual, fragmented ordering and reconciliation increases errors and inefficiency.

- Lack of real-time visibility into CMO inventory drives long lead times and stockouts.
- Disconnected systems and manually tracked metrics increase late shipments

and risk.

The Solution

- Digitalizing and orchestrating P2P boosts speed, efficiency, and coordination across CMOs.
- Standardized exchange of forecasts, POs, ASNs, and inventory data reduces errors.
- Real-time production and inventory insight boosts on-time payments, revenue, and service.

Target KPIs:

- **35%+** reduction in P2P cycle time
- **2,400** manual PO hours eliminated yearly
- **50%** fewer order and forecast errors
