Customer credit and debit adjustments

Credit and debit adjustments are bi-directional transactions that allows buyers and sellers to ensure the accuracy of financial records and reconcile discrepancies between invoices, payments, and inventory. Use the credit and debit adjustment transactions to correct errors or adjust previously recorded financial transactions. In both cases, adjustments are made to the accounts receivable or payable ledger to reflect the corrected balances.

Users can configure post-transformation logic to classify a sent or received credit and debit adjustment transaction as a supplier credit and debit adjustment or customer credit and debit adjustment. For example, if the controlFileHeader/fileSenderNumber attribute in the canonical matches the companyIdentifierType and companyIdentifierValue within the thirdPartyLogisticsInformation attribute in the canonical, the system should create the transaction subtype as Customer Credit Debit Adjustment. If no match is found, the system should instead create the transaction subtype as Supplier Credit Debit Adjustment.

For more information about Customer credit and debit adjustment guidelines, see [Credit and debit adjustment transactions](#).

Create and submit customer credit and debit adjustments

Create and submit customer credit and debit adjustments. Additionally, customers can begin work on a customer credit and debit adjustment and save it for completion at a later time.

Create and submit a customer credit and debit adjustment

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.

 - iii. Transaction Date field - The transaction date for the nested line item.
- f. Select Apply.

The reference information is added to line item.

- g. Select the item information row drop down to view the reference information in a table.

21. In the Notes section, select the Add  icon to enter any additional comments or instructions.

22. To submit the customer credit debit adjustments:

To save the customer credit debit adjustments in a Draft state and finish it later, ensure the Move To button is not selected and then select the Save

button in the draft state.

- a. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

b. Select the Save  Save button.

The customer credit debit adjustments is submitted.

Tips

- Select the Add  icon, to add a new line item, where available.
- Select the Delete  icon, to remove an individual line item, where available.
- Select the branch  icon, to add a new line item in the inserted table, where available.
- New customer credit debit adjustmentss can also be created by selecting the New  New button on the Customer Credit Debit Adjustments Details screen for an existing customer credit debit adjustments.

Submit a draft customer credit and debit adjustment

Complete and submit a saved customer credit debit adjustments in the draft state.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Commerce - Customer from the left menu.

Partners must have the correct roles assigned if using the Owner's

instance of Multienterprise Information Network Tower.

7. Select Customer Credit Debit Adjustments.

8. Select the Filter  button to find the credit and debit adjustments in Draft state.

9. Select the Memo Number link in the results table.

10. Select the Edit  button.

11. In the Transaction Information section, select Submitted from the Process Status drop down.

12. Confirm the credit and debit adjustment details and select the Edit  icon associated with that line item to modify the fields if required.

13. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

14. Select the Save  button.

The customer credit debit adjustments is submitted.

Tips

- Select the memo number row and then select the Delete  icon on the top of the Search Customer Credit Debit Adjustments screen, to delete a customer credit and debit adjustment in the draft state.

A deleted transaction cannot be retrieved.

Search and view customer credit and debit adjustments

Search for and view customer credit and debit adjustments

Perform this task to search for and view the details of the customer credit and debit adjustment sent or received by customers or suppliers. Viewing the details of a customer credit and debit adjustment enables customers or suppliers to quickly access order information (e.g. the quantity for each line item in an order) in TraceLink without having to search through the actual B2B message.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Commerce - Customer or Commerce - Supplier from the left menu.
 Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.
7. Select Customer Credit Debit Adjustments.
8. Select the Filter  button.
9. Fill in one or more of the following fields to filter the results:
 - i. Memo Number field - The unique identifier for the credit debit memo.
 - ii. State drop-down - The state of the customer credit debit adjustments:
 - Draft - The transaction is in the draft state.
 - Submit - The transaction has been created.

- Processing – The application is getting ready to handle incoming transactions by doing some initial tasks, such as copying the files it receives.
 - Processed – The application changes the standard information into a format that is easy to use and specific to your transaction.
 - Preparing to Send – The application is getting ready to send out a transaction and is doing some initial tasks, like copying the necessary information for the process.
 - Sending –The application sends out business transactions to the buyer or supplier.
 - Sent – The transaction is successfully completed and shared with the receiving party.
- iii. Supplier type-ahead – Displays only if the menu item is Sent Customer Credit Debit Adjustments The name of the company the customer credit and debit adjustment was sent to.
- If the name of the company is not present in the Owner's master data then the company's name must be entered manually.
- iv. Customer type-ahead – Displays only if the menu item is Received Customer Credit Debit Adjustments The name of the company the customer credit and debit adjustment was received from.
- If the name of the company is not present in the Owner's master data then the company's name must be entered manually.
- v. Last Modified drop-down – The period of time in which the customer credit debit adjustments was last updated:
- Today – The transaction was modified within the last few hours.
 - Yesterday – The transaction was updated within the past 24 hours.
 - Last Week – The transaction was modified in the last 7 days.
 - Last Month – The transaction was modified in the last 30 days.
 - Last 3 Months – The transaction was modified in the last 90 days.
 - Last 6 Months – The transaction was modified in the last 180 days.

- Custom Range – Select a specific period of time that the transaction was modified in from the calendar.

10. Select Apply.

A list of customer credit debit adjustmentss displays based on the filter results.

11. Select the link for the customer credit debit adjustments from the results table.

The View Customer Credit Debit Adjustments screen displays.

12. To view all fields for each line item, select the View icon on the Customer Credit Debit Adjustments Details screen.

Reprocess and resubmit customer credit and debit adjustments

Reprocess customer credit and debit adjustments

Reprocess the return authorization request if the Processing Status is set to Paused with Error on the Search Business Transaction screen. Use the following procedure to resolve any error messages encountered while submitting customer credit and debit adjustments.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.

5. Select the Go button.

6. Select Commerce - Customer from the left menu.

Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

7. Select Customer Credit Debit Adjustments.

8. Select the Filter button to find the credit and debit adjustments in Processing, Processed, Preparing to Send, or Sending state.

9. Select the Memo Number link in the results table.

10. View the following fields for error in the Transaction Information section:

- Process Status - Displays the status of the submitted transaction.
- Last Transaction Error - Displays the error message.

11. Select the Edit button..

12. In the Transaction Information section, select Submitted from the Process Status drop down.

13. Select the Save button.

The customer credit and debit adjustment request is moved from Processing state to Sending state indicating that the customer credit and debit adjustment is submitted successfully.

Do not select the Move To button, as it will cause the transaction to skip a workflow state, preventing successful delivery.

Resubmit customer credit and debit adjustments

If a transaction is successfully sent to a partner but an issue occurs on the partner's side (e.g. in their ERP system), the sender can avoid re-entering all the details by rolling back to a previous workflow state and resending the transaction, thus saving time and effort for both parties.

1. Select the Main Menu  icon.
2. Select My Networks in the header.
3. Select a [MPL Network] from the Select your Network drop-down in the header.
4. Select a Partner or Location (e.g. your entire company or a Link to a specific Partner or internal location) in the header.
5. Select the Go button.
6. Select Commerce - Customer from the left menu.

Partners must have the correct roles assigned if using the Owner's instance of Multienterprise Information Network Tower.

7. Select Customer Credit Debit Adjustments.
8. Select a Memo Number in Sent state.

9. Select the Edit  button.

The state of the customer credit and debit adjustment is automatically set to Sending state.

10. Select the Move To button at the top of the screen.

The submit status indicator circle is filled in with green to indicate the desired action upon selecting save.

11. Select the Save  button.

The customer credit debit adjustments is submitted.

The status of the customer credit and debit adjustment moves to Sent state.
