

# U.S. Compounding Pharmacy Chooses MINT to Digitalize Procure-to-Pay Transactions

A U.S.-based compounding pharmacy and wholesale distributor (~$127M revenue) selected **TraceLink MINT** to digitally orchestrate supplier transactions across pharmacy and distribution operations. By integrating trade partners on a unified platform, the organization will automate procure-to-pay (P2P) processes, streamline collaboration, and improve operational control and financial execution across its growing supplier network.

## Customer Business Challenges

- Manual handling of POs, ASNs, invoices, and adjustments creates errors and inefficiency.

- Limited visibility into PO and ASN status reduces control across suppliers.
- Spreadsheet-based processing of credit and debit adjustments limits scalability.

## The Solution

- Automating POs, invoices, ASNs, and adjustments replaces email-based processes and reduces errors.
- Centralized supply chain document handling improves visibility and control across suppliers.
- Real-time production and inventory insight supports faster transactions, improved cash flow, and stronger service performance.

## Target KPIs:

- **50%** faster transactions
- **60%** faster partner onboarding
- **100%** on-time payments
