## UI features

The following new or updated functionality is included in this release.

### Enhancements to Comment Sorting and Visibility Control

As part of this feature, comments are sorted in descending order of timestamp, ensuring the latest comment appears at the top for quick visibility of recent

updates without scrolling through older comments.

Additionally, Owners can mark comments as Internal Only to restrict visibility. Comments marked as Internal Only are accessible only to users within the Owner's company.

### **Impact analysis**

- Interface options:
  - Web UI
- Business segment impacts:
  - All business segments for both Owners and Partners

### **Enhancements to Notifications for List and Work Item**

List notifications now display high-level details about the child items that are added or removed during List creation or updates, providing better visibility into the List changes.

Similarly, notifications for the Work Items which are part of a list now include the associated List ID.
