TRACELINK UNIVERSITY

Configure TraceLink for Integration Catalog

Configure Integration Catalog

See the Administer Help Center for information about how to configure B2B connections that use Link Actions and Transforms.

Assign Integration Catalog roles

See the Administer Help Center for information about how to assign Integration Catalog roles to users.

Roles

- Link Action Developer – Allows access to view, create, and update Company and Marketplace Link Actions.
- Transform Manager – Allows access to view, create, and update Company and Marketplace Transforms.
