What's new in Integration Manager 2026.2.0

Explore what's new in the Integration Manager, version 2026.2.0 release.

Release information

This document describes the TraceLink capabilities included in the Integration Manager, version 2026.2.0 app release, which is available on Validation and Production on 16 Apr 2026.

The following apps are impacted by this release and will be updated to the version listed:

- Integration Manager, version 2026.2.0

Solutions supported by this app version:

- Integration Catalog, solution version 2.3.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

 This Help Center is subject to change based on the successful deployment of the release. In the event of changes, the Help Center will be updated within one

week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Patch releases

The following patches are released for this version:

- Integration Manager, version 2026.2.2 is available on Validation and Production on 02 Jun 2026.
- Integration Manager, version 2026.2.1 is available on Validation and Production on 28 Apr 2026.

These patches are cumulative, and the most recent patch release includes functionality from all previous versions.

This Integration Catalog, solution version 2.3.0 solution release has been added to provide an interface to create, store, view and edit Link Actions and Transforms.

28 Apr 2026	02	The following updates have been made since the previous revision was distributed: <ul style="list-style-type: none"> • Issue information for the Integration Manager, version 2026.2.1 patch is added: <ul style="list-style-type: none"> ◦ 1 issue is added to Resolved issues. ◦ 0 issues are added to Known issues.
02 Jun 2026	03	The following updates have been made since the previous revision was distributed: <ul style="list-style-type: none"> • Issue information for the Integration Manager, version 2026.2.2 patch is added: <ul style="list-style-type: none"> ◦ 1 issue is added to Resolved issues. ◦ 0 issues are added to Known issues.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality is included in this release. These features are changes to the app to support another feature and do not have any impacts on their own.

Enable dynamic customer-specific configuration in transform execution

In the Integration Catalog, solution version 2.3.0 release, a new menu item, Integration Configuration Objects (ICO), is introduced. ICOs enable Application Administrators to provide configuration values (via UI) when a transform is executed. Previously, configuration values had to be hard-coded in the transform.

Resolved issues

Integration Manager, version 2026.2.2

The following issue is resolved in this release. The prefixes are for internal TraceLink tracking purposes and do not mean anything to customers.

ID	Interface	Issue Description
TL-108841: Optimized Transform Retrieval Logic	Processing	Optimized transform retrieval logic to improve transform processing performance, reduce execution time, and use system resources more efficiently during transform execution. This issue is resolved.

Integration Manager, version 2026.2.1

The following issue is resolved in this release. The prefixes are for internal TraceLink tracking purposes and do not mean anything to customers.

ID	Interface	Issue Description
TL-100107: Verifies If Inbound and Outbound MIME Type Fields Are Valid	Processing	Previously, the Inbound and Outbound MIME Type fields on the New Company Transforms and New Marketplace Transforms page did not validate the format of entered values. This update adds validation to ensure both fields have valid formats. This issue is resolved.

Integration Manager, version 2026.2.0

There are no resolved issues in this release.

Known issues

Integration Manager, version 2026.2.2

There are no known issues in this release.

Integration Manager, version 2026.2.1

There are no known issues in this release.

Integration Manager, version 2026.2.0

There are no known issues in this release.
