Explore what's new in the Master Data, solution version 15.0.0 release. .What's new in the system.

Release information

This document describes the TraceLink capabilities included in the Master Data, solution version 15.0.0 release, which is available on Validation on 28 Apr 2026 and Production on 26 May 2026.

The following solutions are impacted by this release and will be updated to the version listed:

- Master Data, solution version 15.0.0

Apps that support this solution version:

- Master Data Exchange, version 2026.2.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

This Help Center is subject to change based on the deployment of the release.

In the event of changes, the Help Center will be updated within one week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Revisions

Date	Revision	Description
31 Mar 2026	01	Initial version.
28 Apr 2026	02	The following updates have been made since the previous revision was distributed: • 0 issues are added to Resolved issues. • 0 issues are added to Known issues.

UI Features

The following new or updated functionality will be included in this release.

Upload and Preview Company Business Logo and Product Image

Application Administrators and Members with Expanded and Standard access can now:

- Upload, preview, download, and remove a **business logo** from the Company Headquarters and Locations view and edit pages
- Upload, preview, download, and remove a **product image** from the Product view and edit pages

Uploaded images are **immediately available** for preview, improving visual identification and consistency across applications.

Impact analysis

- Interface options:
 - UI
- Business segment impacts:

All business segments for Owners.

View and Create Partner Location from Partner Details

To navigate to the view and create Partner Locations screens from the Partner Details screen, TraceLink introduces the View Locations and New Location buttons.

- View Locations - Available to Master Data Viewer, Master Data Administrator, Partner Data Viewer, and Partner Data Manager roles to view locations.
- New Location - Available to Master Data Administrator and Partner Data Manager roles to create a New Partner Location.

When navigating, the selected Partner is automatically applied as a filter in Partner Location Search and pre-populated in New Partner Location, reducing manual filtering and data entry.

Impact analysis

- Interface options:
