What's new in the Solution Builder, version 2026.3.0 release

Explore what's new in the Solution Builder, version 2026.3.0 release. To learn more about what's new in the OPUS Solution Environment, version 10.0.0 that provides the user interface for this app, see What's new in the OPUS Solution Environment, version 10.0.0 release.

Release information

This document describes the TraceLink capabilities included in the Solution Builder, version 2026.3.0 app release, which is available on Validation and Production on 16 Jul 2026.

The following apps are impacted by this release and will be updated to the version listed:

- Solution Builder, version 2026.3.0

Solutions supported by this app version:

- OPUS Solution Environment, version 10.0.0

The features below are in order of functional relevance (i.e. the typical order in which a user executes a function or task).

These release notes are subject to change based on the deployment of the release. In the event of changes, the release notes and any related documentation will be updated within one week of release deployment. Deployment completion can be confirmed in the TraceLink Release Notice email.

Revisions

Date	Revision	Description
16 Jul 2026	01	Initial version.

API features

There is no new or updated API functionality included in this release.

System features

The following new or updated system functionality is included in this release.

These features are changes to the app to support another feature and do not have any impacts on their own.

Configure Decimal Values for Percent Fields

This feature includes support for configuring decimal values for Percent fields. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Configure Decimal Values for Percent Fields feature in the OPUS Solution Environment, version 10.0.0 release.

Improve Calendar Date Handling

This feature includes support for improving Calendar Date handling. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Improve Calendar Date Handling feature in the OPUS Solution Environment, version 10.0.0 release.

Improve Page Load Transitions with Skeleton Screens

This feature includes support for improving page load transitions with skeleton screens. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Improve Page Load Transitions with Skeleton Screens feature in the OPUS Solution Environment, version 10.0.0 release.

Enable Page Actions on New and View/Edit Pages

This feature includes support for enabling page actions on New and View/Edit Pages. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Enable Page Actions on New and View/Edit Pages feature in the OPUS Solution Environment, version 10.0.0 release.

Improved Compact Collection Lists

This feature includes support for improved compact Collection Lists. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Improved Compact Collection

Lists feature in the OPUS Solution Environment, version 10.0.0 release.

Navigate Dynamically to Child New Pages from Parent View Pages

This feature includes support for navigating dynamically to child New Pages from parent View Pages. For more information about the corresponding solution feature, see the OPUS Solution Environment, solution version 10.0.0 release.

Impact analysis

The impacts for these features are the same as the Navigate Dynamically to Child New Pages from Parent View Pages feature in the OPUS Solution Environment, version 10.0.0 release.

Resolved issues

Solution Builder, version 2026.3.0

There are no resolved issues in this release.

Known issues

Solution Builder, version 2026.3.0

There are no known issues in this release.
