# DSCSA 2023 Webinar Series: How to Ensure Drug Supply and Create Business Value with DSCSA Compliance for Dispensers

The U.S. Drug Supply Chain Security Act (DSCSA) will require dramatic changes to the way dispensers exchange information with trading partners. Achieving the degree of interoperability mandated by DSCSA however, is fraught with operational complexities, leaving many dispensers evaluating the best path forward. Is your organization ready? This webinar series is designed to help educate and prepare you for DSCSA 2023, exploring the different risks and opportunities that may present themselves along this journey.

## **DSCSA 2023: Requirements, Necessary Capabilities, and the Path to Predicting Drug Shortages**

*Watch now on demand.*

Complying with the DSCSA 2023 mandate requires item-level traceability and introduces significant complexity and industry-wide challenges compared with current lot-level traceability. Join us to discover the most effective ways to meet DSCSA 2023 compliance mandates and leverage compliance investments to create new business value, prevent drug shortages, and improve patient outcomes.

## **Transitioning from Lot-Level to Item-Level Traceability Under DSCSA and the Need for an Experienced Partner**

*Watch now on demand.*

DSCSA 2023 mandates item-level traceability, which means dispensers must be able to receive this data from suppliers and produce comprehensive transaction information on demand. Join this webinar to discover the different approaches to compliance and the value of deploying your own solution instead of relying on wholesaler portals.

## **How to Prepare for Interoperable Data Exchange and the Verification Requirements of DSCSA**

*Watch now on demand.*

DSCSA 2023 requires pharmaceutical supply chain trading partners to be able to exchange data in a “secure, interoperable, electronic manner” in accordance with FDA standards. Attend this session to discover what this means for dispensers, why procuring this data from suppliers is so complex, and how the Opus platform from TraceLink was purpose-built to ease this process.
