DSCSA 2023: Preparing for EPCIS Data Exchange

- ☐ Contact Henry Schein at Serialization@HenrySchein.com with your:
  - Technical contact name and email address
  - Regulatory contact name and email address
  - Solutions Provider contact name and email address (if not TraceLink)
  - Complete list of product GTINs for all saleable units
  - Your company and shipping location GLN and SGLNs
- ☐ Load Henry Schein's company GLN and SGLNs into your master data
- ☐ Provide your TraceLink NSM information to Henry Schein. If you do not have an NSM let us know and we will contact TraceLink on your behalf.
- ☐ Establish and test connectivity with TraceLink
- ☐ Send a Product Track ServiceLink, (TraceLink partners), or put in a request to your TraceLink NSM for a ServiceLink to be created and sent to Henry Schein
- ☐ Configure the PT ServiceLink using your company GLN as the sender and Henry Schein's company GLN of 0304040000007 as the receiver
- ☐ Send a test Sales Shipment EPCIS message with Aggregated data to Henry Schein's TraceLink iTest environment
- ☐ Confirm successful receipt and processing by Henry Schein
- ☐ Schedule go-live date
